ADDITIONAL FEATURES

General Features

- MP3 Playback for CD-R
- Block Noise Reduction (BNR)
- ATRAC3 Playback for Memory Stick® media*
- Slot Loading
- Custom Parental Control
- Quick Setup
- Sound Feedback

Video Features

- 10bit/27MHz Video DAC
- Block Noise Reduction (BNR)
- Advanced Smooth Scan
- Unlocked Search
- Instant Replay
- Smooth Slow

Audio Features

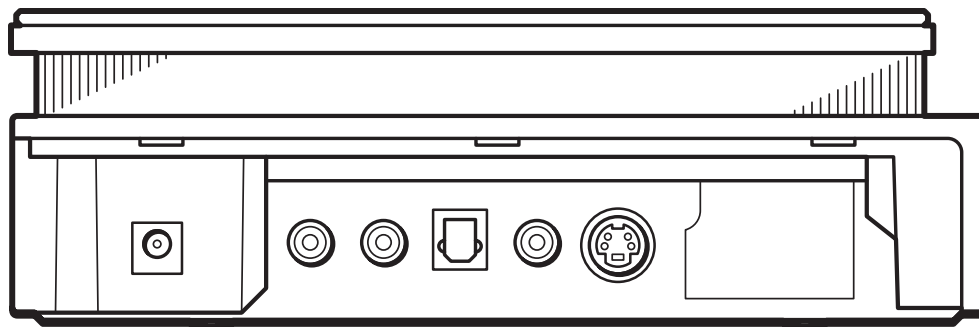

- 192kHz/24bit Audio DAC
- 48kHz/16bit Digital Output
- dts® Digital Output
- TV Virtual Surround (4-Mode: Standard, Dynamic, Wide, and Night)

Convenience Features

- Control Menu
- Background Graphics
- Screen Saver
- Audio/Video Bit Rate Indicator
- Layer Indicator
- Custom Parental Control (50 Discs)
- Quick Setup
- Strobe Playback
- Title/Chapter Viewer

DVD player

KEY TECHNOLOGY

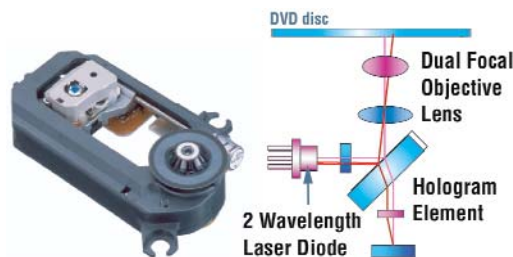

MP3 Playback Playing MP3 Music on a Sony DVD player is easy. Just insert an MP3 encoded disc and press MENU. A blue screen pops up to display your folders. Scroll down the list using the remote or front panel cursor control to select the folder you want. The green files screen pops up to show the files in the selected folder. Select the file you want to hear and you're done. Finding music couldn't be easier.

Easy Setup Setup can be confusing and time consuming—but not with Sony's Quick Setup. As soon as you connect your DVD player, the Quick Setup screen appears ready to guide you through the process, step by step, screen by screen.

You'll make the right configuration and connections in no time. Smart!

Precision Drive™ 2 System Past generations of Precision Drive technology were only able to compensate for warped discs by moving the entire optical block, which took more time and limited the amount of correction possible.

Sony's new Precision Drive 2 system simplifies the process by moving the lens—instead of the entire optical block—for faster and more accurate error correction.

ADDITIONAL FEATURES

Specifications

Audio

- 192kHz/24bit Audio DAC
- Frequency Response:
 - DVD (PCM96kHz): 2Hz to 44kHz (±1.0)
 - DVD (PCM48kHz): 2Hz to 22kHz (±0.5)
 - CD: 2Hz to 20kHz (±0.5)
- Signal-to-Noise Ratio: 115dB
- Audio Dynamic Range:
 - DVD: 103 dB
 - CD: 99 dB
- Harmonic Distortion: 0.003%

- Wow and Flutter: Less than detected value (±0.001%W PEAK)

Video

- 10bit/27MHz Video DAC
- Signal Format: NTSC

Connections

Video Outputs

- Composite Video Output x 1
- S-Video Output x 1

Audio Outputs

- Analog Audio: 2ch Output x 1
- Digital Optical Output x 1

General

- Power Requirements: AC120V, 60Hz
- Power Consumption (in Operation): 12W

Accessories

Supplied Accessories

- Instruction Manual
- AV Cable
- Compact Remote
- AA Battery x 2
